

Dear Partners!

We are glad to announce that we have expanded our product range with Thermo Plastic bearing units (PTF) comes with plastic housing, Stainless Steel bearing and cup.

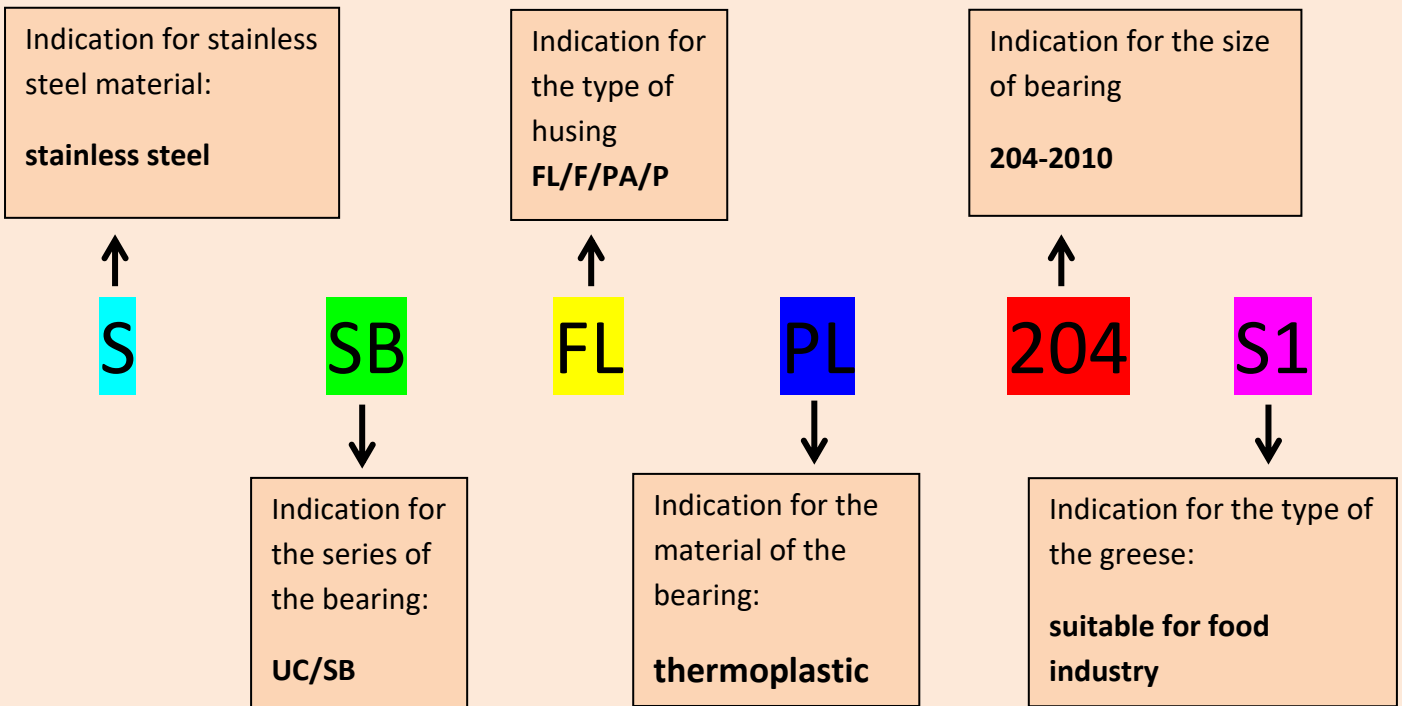

PTF bearing units are used at:

- Food Industries (canning factories, vegetable / fruit processing plants)
- Chemical Industries
- Wastewater treatment plants

These bearing units work very well in **aqueous, alkaline and acidic environments**, thanks to **Thermo Plastic housings and acid-proof bearings**.

The meanings of the suffixes are the followings:

Currently available series:

- SSBFLPL
- SSBFPL
- SSBPAPL
- SSBPPL
- SUCFBPL
- SUCFPL
- SUCPAPL
- SUCPPL

Versions of Cups: can be Closed (**CC**) or Opened (**OC**)

Seals: **BS** (goes with SB series)
